POSTGRADUATE PROGRAMS
WHY?

- MBA programme will equip the students with personal, professional and strategic business management skills to enable the students to succeed in a rapidly developing business environment.
- MBA programme is tailored for both full-time students and part-time students.
- MBA programme runs at weekends – our flexible learning approach is aimed to suit your timetable and your professional needs.

BRIEF

As a Sohar University MBA student, you will be guaranteed top-quality student support services, delivered by our faculty professionals and learning resources centre, located in a state-of-the-art facility on our modern campus. Our student services provide a treasure-trove of reference material and up-to-the minute articles on business matters and a host of related commercial interests, as well as an all-access e-library and e-learning centre. Sohar University has forged strong links with the growing industrial presence in Sohar Port and Sohar Industrial Area- and throughout Oman. Our industrial and commercial partners are actively seeking to recruit MBA graduates. Perhaps, now is the time for you to be chosen.
ADMISSION REQUIREMENTS

- Applicants to Sohar University MBA programme must:
  - Hold a bachelor degree (or equivalent) with CGPA score out of 4.00:
    - CGPA 2.4 for candidates with 3-4 years of relevant professional experience or
    - CGPA 2.25 for candidates having more than 4 years of professional experience.
  - Applicants without bachelor degree can be considered with 8-10 years of demonstrable managerial/professional experience.
  - An IELTS score of 6, or TOEFL score of 500 or above (pBT), or score of 173 or above (cBT), or 61 in (iBT) (not more than 2 years old).
  - If a candidate’s first degree was conducted in English, they will not have to provide evidence of their proficiency in English.
  - Passing an interview.
WHY?

- The programme would improve career opportunities and increase chances in the job market.
- The programme helps the student to develop their knowledge and skills for achieving their career goals or starting their own jobs in the field of computer science.
- The programme would strengthen the students’ research capabilities.

BRIEF

The program aims to provide professional postgraduate education and to maintain continuing relationship with the industrial community through master level educational activities.

The Masters Computer Science program (M.Sc.) is designed to provide required knowledge, skills and experiences that will help students achieving their career goals or starting their own jobs in the field of computing and information technology.
